Education

Bachelor of Technology in Computer Science and Engineering

VIT Bhopal University, Bhopal, Madhya Pradesh

2022–26

CGPA: 8.35

Skills

Languages: Java (Data Structures and Algorithms), Python, C++ , JavaScript, HTML, CSS

Frameworks/Libraries: React.js, Express.js, Tailwind CSS, Java Collection Framework

Databases: MongoDB, MySQL

Tools: Node.js, Git, GitHub, VS Code

Certifications

Data Structures and Algorithms in Java (Apna College)

Feb – Sep 2024

MongoDB NodeJs Developer Path (MongoDB University)

Jan – Apr 2025

Full Stack Developer MERN (SmartBridge)

Jan – Apr 2025

Projects

NAGARSAATHI | MERN, Google OAuth

GitHub | Apr 2025

- Developed a QR-enabled web app for ward-wise complaint registration (safety, water, drainage, waste) with real-time tracking and an admin panel for status updates and analytics.
- Enhanced security via two-step admin verification, reducing data risks.
- Streamlined user experience with QR-scan complaint submission and automated ward-wise reports for officials.

Tunetrail | MERN, Tailwind CSS

GitHub | Nov 2024

- Developed a full-featured music streaming platform tailored for an immersive audio experience, enabling users to stream tracks, create and manage personalized playlists, and maintain a dynamic queue system.
- Implemented responsive UI and seamless navigation with Tailwind CSS and React.js, ensuring cross-device compatibility.
- Built backend with Node.js, Express.js, and MongoDB to handle authentication, media streaming, and playlist management.

Extracurricular

Core Member – Design Team: AMS Student Chapter

Apr – Aug 2024

VIT Bhopal University, Bhopal, Madhya Pradesh

- Created and delivered 20+ original graphic assets for club events and branding, reinforcing the organization's visual identity.
- Enhanced club recognition by approximately 50% through strategic design solutions and improved visual communication.

Achievements

100 Days of Code Challenge

- Completed the 100 Days of Code Challenge, solved 200+ problems on GeeksforGeeks and LeetCode consistently for 100 days, and strengthened skills in data structures and algorithms.

Under 500 Institute Rank on GeeksforGeeks

- Achieved institute rank of 457 among university students on GeeksforGeeks by solving 400+ coding problems in Java with a coding score of 1190, demonstrating analytical and problem-solving skills.
